Regional Board Perchlorate Public Advisory Group

Thank you for your participation in this week's Perchlorate Public Advisory Group (PPAG) meeting. I have received very favorable comments about the context and content of the meeting and I hope you found the discussion and information presented worthwhile. Regional Board staff are currently preparing a brief summary of the minutes which will be posted on our perchlorate webpage as will the presentations that were made at the meeting.

I understand there was strong interest in having a representative from the Office of Environmental Health Hazard and Assessment (OEHHA) attend the next PPAG meeting. I have made that request and been advised that Dr. George Alexiev will attend our next meeting (set for May 23rd) schedule permitting.

Once again, thank you for attending our PPAG meeting and please do not hesitate to contact me with any suggestions you might have to ensure that future meetings are useful and productive. I can be reached at 213 576-6605 or at ddickers@rb4.swrcb.ca.gov.

Sincerely,

Original Signed by

Dennis A. Dickerson
Executive Officer

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>
